

Wound Care Program

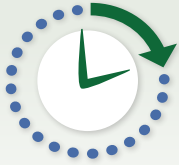

The staff of Fountainview Nursing & Rehabilitation Center is pleased to announce our new partnership with Wound Care Plus!

Our patients can now receive surgical debridement, skin lesion biopsies, and abscess drainage procedures at bedside, rather than having to be transferred to a hospital.

We can now provide care for:

- Pressure Wounds
- Post-Operative Wounds
- Diabetic Wounds
- Unna Boot
- Vascular Wounds
- Vac Therapy

12.5%

Short Stay Pain

National average is 13.1%
