Helpful Information

It's that time of year when the temperatures drop and the snow starts to fall. With the winter weather you're more likely to experience car troubles— from your vehicle not starting to sliding off an icy road. Here are five tips to help prepare your car for the season.

Winter Car Maintenance Checklist

- ✓ Schedule a standard maintenance inspection
- ✓ Check car battery
- ✓ Replace windshield wipers & fill wiper fluid
- ✓ Inspect (and maybe replace) tires
- ✓ Get an oil change
